

Instructions to complete the American Horse Council Economic Impact Survey

Prior to beginning the survey, please read through the following instructions:

This survey is designed to capture the impact of individual **horse owners** (whether commercial or recreational) and **industry suppliers** of equine-related goods and services, such as equine veterinarians, trainers, breeders, lesson providers, trail guides/outfitters, retail suppliers, boarding stables, and farm managers. The results of this survey will be used by the American Horse Council to promote the economic benefits of the horse industry to policy makers.

As an active contributor to the equine industry, you may have received a survey invitation from multiple sources. We require only **one** response from each household. However, if different members of a household manage different horse-related activities, more than one response per household is acceptable.

This survey will be asking for detailed information regarding horse-related revenues, expenses and employment. Please note that all responses are completely anonymous and confidential.

Depending upon the level of your involvement within the industry, the survey should take approximately **15-30 minutes** to complete. However, if you need to exit the survey prior to completion, you may return using the same browser window for up to one week later.

Please have the following information readily available:

1. 2016 Revenue: *All Horse-related revenues (i.e. stud fees, purses)*
2. 2016 Capital Expenditures: *All Horse-related investments (i.e. farm equipment, horses)*
3. 2016 Operating Expenditures: *All Horse-related expenses (i.e. feed, veterinary, riding gear)*
4. 2016 Employment: *Persons employed directly by you for your horse-ownership and/or horse-related commercial activity (# of full and part-time employees and salaries, wages and benefits)*

This survey will only remain active through **Monday, July 17th**. Please use the link below to complete the survey:

: https://innovationgroup.qualtrics.com/jfe/form/SV_00aYvVhgaWHgpvL?Source=Invitation

[As a member HCI you may have already received a survey invitation through email.](#)

If you haven't already done so, please take the time to complete the survey – it is critical to our industry. But please do not distribute the link any further.

We thank you in advance for participating in this incredibly important update to the Economic Impact Study! If you have any questions, please contact the AHC directly at info@horsecouncil.org.

Questions related to Illinois' participation in the survey should be directed to Sheree King ssking789@gmail.com.
